

Project Profile

Finished Acrylabs Liquid Applied Roof Membrane - System
Tough enough for lounge chairs to enjoy this beautiful view

Project Specifications:

- ♦ Fiberglass—Roof Deck
- ♦ Brick Township, NJ

About the project:

Tired, cracked and split fiberglass roof was slated for tear-off. Acrylabs Liquid Applied Roof Membrane - System was installed and saved a costly removal.

Once railings are installed, this old rooftop deck will be brand new again.

Addressing all the critical areas with Fabric Reinforcement to assure a leak free roof.
