

# Project Profile

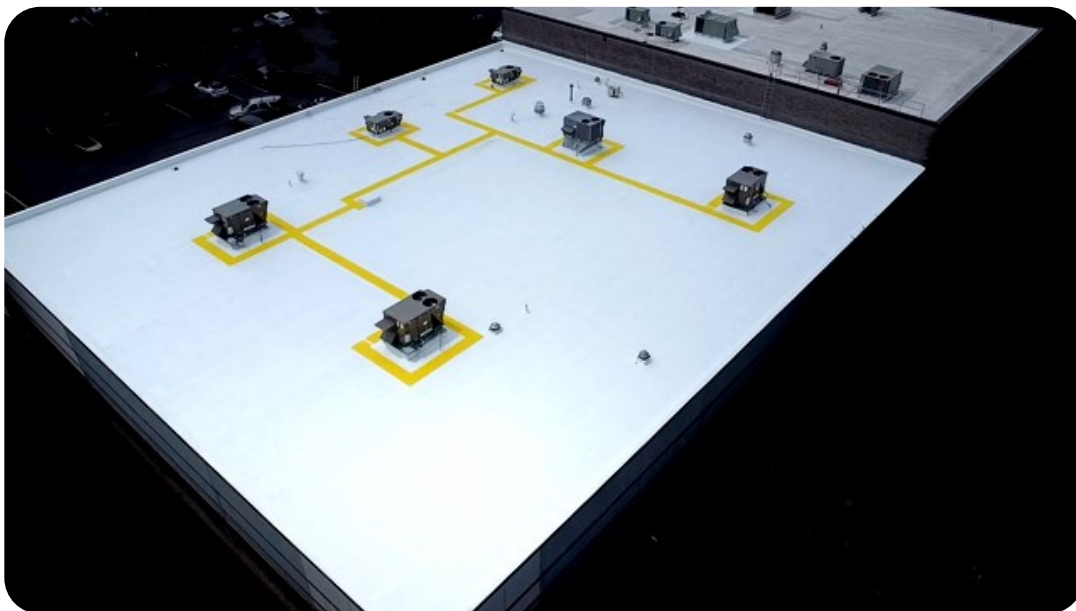

## Project Specifications:

- ◆ Bethlehem, PA
- ◆ EPDM

Good use for the Acrylabs Liquid Walk Pad in Safety Yellow and nonslip aggregate gives an excellent designated area for contractors.

## About the project:

This tired and leaking EPDM roof had seen better days. Using the Acrylabs Liquid Applied Roof Membrane—Systems the contractor was able to save the rubber and avoid a costly tear off.

Prior to washing the EPDM and removing the heavy, overweight cement pavers. These tripping hazards also hold dampness that causes mold and mildew and collects dirt.
