

Project Profile

Project Specifications:

- ◆ Yurt
- ◆ Vancouver, Canada

About the project:

This community embraces what nature has to offer and enjoys life in their yurts. Not having an effective and efficient means to make repairs made it difficult from keeping the elements from entering, until they discovered the easy application of Acrylabs Liquid Applied Roof Membrane - *Systems*.

BEFORE

Previously no products were available to move and flex with the fabric covering

AFTER

Clean water and a rag prepares the area for Acrylabs

Basic equipment and tools are all that is needed for success and easy living with Acrylabs
