## Finish Coat

### PRODUCT DATA

**Description:** Acrylabs **Finish Coat** is a water based, 100% acrylic elastomeric product and is a component of the Acrylabs **Liquid Applied Roof Membrane - Systems**. The **Finish Coat** formulation is engineered for maximum adhesion to new surfaces, such as concrete, plywood, OSB, EPS, fiberglass, cement board, and existing surfaces such as asphalt, BUR, modified bitumen, EPDM, single ply membrane systems and metal. **Finish Coat** cures to a strong, durable finish that is easily maintained and is used as the final coats for the Acrylabs Roof Systems. **Finish Coat** is an excellent product when used as a wall coating. The heavy bodied formulation fills minor cracks and voids and creates an exterior skin helping create a air and moisture barrier.

**Finish Coat** is available in other colors.

**Application:** **Finish Coat** can be brush, roll or spray applied. Two coats are required to maintain a pinhole free membrane. Allow to dry before recoating.

**Finish Coat** is available in 5 and 55 gallon plastic containers.
