

# Project Profile

## Project Specifications:

- ◆ Heineken Building
- ◆ Freeport, Bahamas

## About the project:

**This Caribbean Distillery roof was abandoned and left in disarray. Fortunately, Acrylabs was able to recondition the mod-bit and apply the Acrylabs Liquid Applied Roof Membrane - System to make it function and keep the distillery operations dry.**

**After the debris was removed from the roof, a high pressure washing was done**

**After the pressure washing and preparing the surface the Acrylabs System was installed**
